Josh/Jessica:

\$25,000 doesn't sound too egregious IF that gives us permit ready plans. If not I'd want to know what the costs to get us to permit ready plans would be

I'm on hold with tech support for what is becoming more and more a totally useless software app! I may not make the call if I'm still listening to this shitty music.

Subject: RE: Revised South Park Walkability Project Contract and Melendrez Proposal

Hi everyone,

I went through the contract and pulled out all the questions that the Pepper Hamilton team had within their draft and listed them in one document so it is easier for people to weigh in on the questions rather than going through the whole draft. The questions are attached.

Also – does anyone have any thoughts on whether \$25,000 is a reasonable price for the conceptual design from Melendrez before we talk to Dan at 3pm?

Thank You!!!

Josh Kreger

Subject: Revised South Park Walkability Project Contract and Melendrez Proposal

Hi Everyone,

Attached is the revised contract we got from Ted last night that includes their redlines and some questions embedded. Also, attached is the conceptual design contract proposal from Melendrez that Dan McGrew from Griffith Company sent us last night. We are touching base with Dan at 3pm today, so please let us know if there are any comments to share before then. I think the key question is whether \$25,000 seems like a reasonable price for design services. Thank you!!
